Metacaulk® 1000 Firestopping Sealant

1. Product Description

Metacaulk® 1000 is a one component, general purpose fire rated sealant and smoke seal for construction joints and through-penetrations. Metacaulk® 1000 is a water based, extremely intumescent, non-sag caulking grade sealant that is easy to apply as well as to retrofit. It cures to an elastomeric seal that is suitable where dynamic movement is expected. In the event of a fire, Metacaulk® 1000 will prevent the spread of flames, smoke, hot gases and water through joint openings and through-penetrations. No dilution or mixing is required for use. No special skills are necessary for installation. Metacaulk® 1000 is applied with a conventional caulking gun, bulk loading gun or can be troweled from the pail. For large applications, it can be pumped directly from the pail. Metacaulk® 1000 systems are rated for 1, 2, 3 and 4 hours in accordance with the ASTM E814 (UL1479), UL 2079 and ULC-S115-95 test standards.

vibration or movement. Metacaulk® 1000 can also be used on various penetrations such as EMT, telephone & power cables, insulated pipes, etc. in concrete floors and walls, gypsum walls as well as wood floors. Use Metacaulk® 1000 to prevent the spread of fire and smoke through joints in fire rated gypsum wallboard partitions, concrete block or concrete walls and/ or concrete or corrugated steel deck floor/ceiling assemblies.

4. Installation Data
Install Metacaulk® 1000 using standard caulking techniques or trowel from pails. Metacaulk® 1000 may also be pumped from the pails. When damming materials are needed, use only materials approved for the specific application.

TYPICAL TOP OF WALL INSTALLATION

Step 1)
Cut and fit the gypsum wallboard to the contour of the steel decking leaving a maximum 3/4" (19 mm) relief gap.

Step 2)
Pack the flute openings and relief gap with required amount of fiberglass insulation and recess to required depth.

Step 3)
Gun, trowel or pump the sealant as required to the specified depth. Properly tool sealant surface flush with the wall. Consult UL Directory for complete instructions and system listings.
